

Postcard Campaign Program

A true postcard campaign means you'll send a postcard every month or every other month for a 6 month period. Pricing below is per design.

Why use postcards?

- Low cost way to get your message out.
- No envelope to open increases the chance your message will be read. Your brief message cannot be overlooked - even by people quickly screening their mail over a wastebasket. It's almost impossible to throw our postcards away without looking at the message.
- Easy to send. With postcards there are no assembling, collating, stuffing, sealing envelopes etc.
- Versatile tool. A postcard isn't just something to send through the mail. Postcards can also serve as big business cards, and small information sheets. Your card can tell recipients to give the card to your technician for a special discount or offer.
- Your postcards can "brand" you and your business
- Postcards as small billboards. The quick message on the front of our cards can be easily understood!
